Specialty butters and oils for cosmetic applications

HALLSTAR 
B E A U T Y

BIOCHEMICA® NATURAL BUTTERS

Obtained through a patented cold extraction process, Hallstar's premium, naturally derived butters and exotic oils maintain the original properties of the globally-sourced raw materials from which they are derived — including antioxidant benefits and natural fragrances. Their aesthetics and spreadability support the growing demand for natural products with exceptional sensorial attributes. A select group of our butters and oils even offer a range of functional benefits including moisturizing, anti-aging, protective, anti-inflammatory, soothing, calming and more. All Biochemica® products that contain palm are RSPO Mass Balanced Certified, and many are Ecocert, COSMOS or USDA NOP Organic Certified.

CITRUS BUTTERS

Biochemica® Citrus Butters are exclusively made to appeal to the senses. In addition to their individual benefits, Biochemica® Citrus Butters add freshness to any formulation and exhibit excellent spreadability on the skin, making them ideal for many cosmetic applications.
